COFFEE DRINKING CAN BE A SPECIAL EXPERIENCE

Every single time, with every single cup.

GOAT STORY

GOAT STORY was inspired by the greatest discovery of all time – coffee! It was back in 13th century that a flock of goats stumbled upon a bush of berries that made them go loco! Their obviously bored and adventure seeking shepherd decided to brew the berries – and thank goats he did!

Fast forward to the 21st century: that's when we kick in. We decided to revolutionize coffee drinking and started designing exquisite coffee accessories.

The shape is also ergonomic and lets you drink the last sip of your coffee due to its incline. On top of that, the Mug can be worn across your shoulders or attached to your bag thanks to the straps that come with.
